Georgia Minority Health Advisory Council Addendum

Because of Georgia's racial and ethnic diversity, and a dramatic increase in segments of the population with Limited English Proficiency, the Georgia Minority Health Advisory Council is working with the Department of Community Health to assess our health systems' ability to provide Culturally and Linguistically Appropriate Services (CLAS) to all segments of our population. We appreciate your willingness to provide information on the following questions:

1. Do you have paid medical interpreters on staff? (Check the box, if yes.)

If you checked yes, how many? 0 (FTE's)

What languages do they interpret?

2. When a paid medical interpreter is not available for a limited-English proficiency patient, what alternative mechanisms do you use to assure the provision of Linguistically Appropriate Services? (Check all that apply)

Bilingual Hospital Staff Member

Bilingual Member of Patient's Family

Community Volunteer Interpreter

Telephone Interpreter Service

Refer Patient to Outside Agency

Other (please describe):

Mitchell County Hospital utilizes LSA (Language Services Associates) Interpretrac telephonic interpretation, GLOBO Language Services for Supplemental telephonic interpretation if needed, and computer telephone integration. Language assistance service is accessible from any hospital phone or cellphone, and employees may access instructions on Archweb. Advance directives and consent forms are available in English and Spanish. Exitcare discharge instructions, including educational information about the patient's illness, care, or special needs, are available in several languages. If a patient needs additional language options, the hospital utilizes Interpretrac translation services as applicable. The hospital also has capability to communicate with sign language patients via a computer-based application on a laptop computer.

3. Please complete the following grid to show the proportion of patients you serve who prefer speaking various languages (name the 3 most common non-English languages spoken.)

Top 3 most common non-English languages spoken by your patients	Percent of patients for whom this is their preferred language	# of physicians on staff who speak this language	# of nurses on staff who speak this language	# of other employed staff who speak this language
Other	2.63	0	0	0
Unknown	1.25	0	0	0
Spanish	1.08	0	0	0

4. What training have you provided to your staff to assure cultural competency and the provision of **Culturally and Linguistically Appropriate Services (CLAS) to your patients?**

During new employee orientation, new hires are introduced to resources available within the health system to communicate with patients with Limited English Proficiency or who have vision, speech, or hearing impairments. New employees are assigned a Healthstream online educational course, "Diversity, Equity, and Inclusion." Additionally, on an annual basis, all employees are to complete a mandatory Healthstream online educational course, "Cultural Competence & Diversity." This course is based on our patient populations and the culturally diverse patients staff may encounter.

5. What is the most urgent tool or resource you need in order to increase your ability to provide **Culturally and Linguistically Appropriate Services (CLAS) to your patients?**

Directional signage is currently available only in English and Braille; it would be helpful to add Spanish for patients and visitors and also have maps of the campus in Spanish. Additionally, adding functionality of on-line interpreter services to bedside charting within the electronic health record would be much more user friendly to patients and more time efficient for staff.

6. In what languages are the signs written that direct patients within your facility?

- | | | | |
|--------------------------------|--|---|----|
| 1. English Directional Signage | 2. Braille room identification

7. If an uninsured patient visits your emergency department, is there a community health center, federally-qualified health center, free clinic, or other reduced-fee safety net clinic nearby to which you could refer that patient in order to provide him or her an affordable primary care medical home regardless of ability to pay? (Check the box, if yes)

If you checked yes, what is the name and location of that health care center or clinic?

Mitchell County Hospital's Emergency Department serves citizens of Mitchell County and surrounding counties. We are able to refer patients to the Mitchell County Health Department and Primary Care of Southwest Georgia, a Federally Qualified Health Center, for primary care services. Primary Care of Southwest Georgia provides primary care to citizens of Southwest Georgia with an emphasis on the medically uninsured and underserved, regardless of the patient's or family's ability to pay.
